

## EmployeeKeeper™ / GateKeeper™

**Employee Keeper™/GateKeeper™** offers full perimeter security with positive identification of employees and contractors. The system is completely scaleable to any size organization from a single entrance to multiple buildings with multiple gateways. Employee Keeper™ is based on issuance of plastic cards for Positive Identity Verification. The Gatekeeper system is divided into two main functions Employee/Visitor Card Issuance and Positive Identification Verification and Tracking.

**Card Issuance** starts with an easy-to-use card layout designer, personalization includes: effective and termination dates, fingerprint, photo, and signature. Prints most card types including basic, magnetic stripe, HID, SmartCard, Mifare and Proximity. Cards can be printed in batch mode with card selection via "Conditional Search-Query by Example" process. Card Issue Log records time and date that printing was requested, when card was printed, issued, returned and destroyed. Significant features include photo history file, photo transfer to Windows® folder, custom data fields, optional remote printing and Conditional Search-Query by Example reports.

**Positive Identification Verification and Tracking** process is initiated by passing the card through a gateway card reader. Positive Identification is established when the cardholder's photo pops up on the monitor. Positive Identification can be enhanced by biometrically scanning fingerprints. The pop up record and photo will flag viewer if the termination date has been exceeded. Entrance and departure times are stamped and recorded for later query (time and attendance, etc.). Property Passes can be issued to track assets.

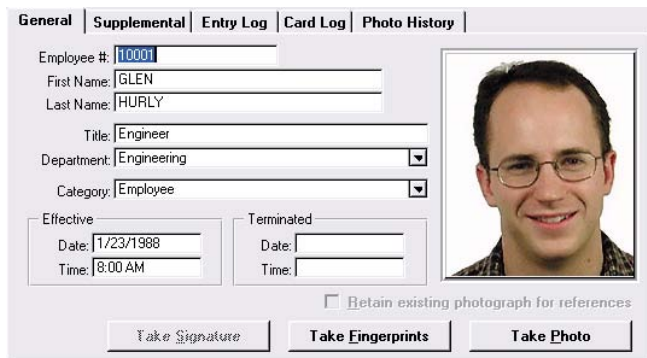

### Quick Employee Look-Up By name and employee number

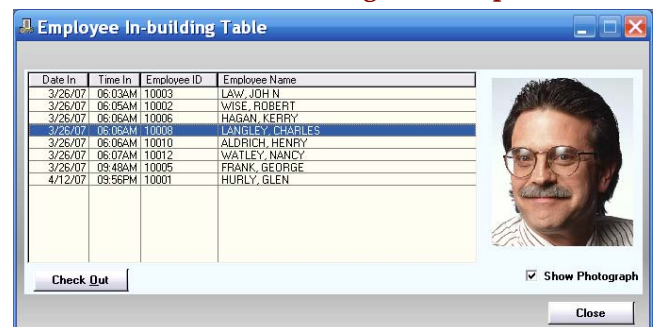

### Positive Identification with a photo and fingerprint verification

### Detailed Employee record with photo, fingerprint, signature, Entry Log, Card Log Photo can be transferred to Windows® file

### Who is in the building list with photo

## Feature Table

Features	Employee Keeper™	Gate Keeper™	Benefits
Easy-to-Use Card Designer	S	S	Rapid learning curve
Employee Table	S	S	Provides quick access to Employee Records
Employee Log	S	S	Provides quick access to Employee gate traffic data
Employee Quick In-Building Query	S	S	Emergency information
Employee Check-In/Out	S	S	Provides security and tracking data
Photo capture from Camera or Windows file	S	S	Convenience, security
Photo capture from Scanner	S	S	Security, flexibility
Photo History	S	S	Security records of changing appearance
Photo Transfer to Windows Folder	S	S	Convenient, cost effective
Property Pass Check In/Out	S	S	Asset control, tracking, cost effective
Property Pass Signature	S	S	Control
Unattended Gate Configuration	S	S	Flexibility, cost effective
Instant Point-of-Issue ID Cards	S	S	Convenient, cost effective
Positive Identification Verification Employee/Contractor	S	S	Security
Links to most card printers	S	S	Flexibility, cost
Batch Printing	S	S	Convenient, cost and time effective
Card Issuing Log	S	S	Provides tracking data
Custom Data Field Add-ons	S	S	Convenient, expanded database
MS Access Database	S	S	Familiar, supported
Multiple Card Layouts	S	S	Convenient, flexible
Secure Password Protected Database	S	S	Security
On Demand Reports	S	S	Convenient, quick information
Multi-User Network Ready	S	S	Convenient, flexibility
Capture, Finger Prints (10)	S	S	Security
Signature Capture	S	S	Security
Card Serial Number Control	S	S	Provides card management
Verification Scanners-Magnetic, Bar code, SmartCard, Proximity, Wiegand,	S	S	Flexibility, security, speeds up gateway traffic
Import Data from Databases	S	S	Convenient, cost effective, time saving
Program Access/Restriction	S	S	Security, control
Lost and Found Log	S	S	Convenience, control
Visitor Table		S	Provides quick access to Visitor Records
Visitor Log		S	Provides tracking data
Visitor Query Report Generator		S	Convenience, quick information
Visitor Check In/Out		S	Security and tracking data
Visitor Photo capture from camera or Windows file		S	Security
Visitor Appointment Book		S	Convenience, Control, Security, preprint ID cards
Visitor Electronic Signature Capture		S	Security
Visitor Pre-authorization		S	Security, Control
