

Permit management
just got easier with. . .

Gunkeeper™

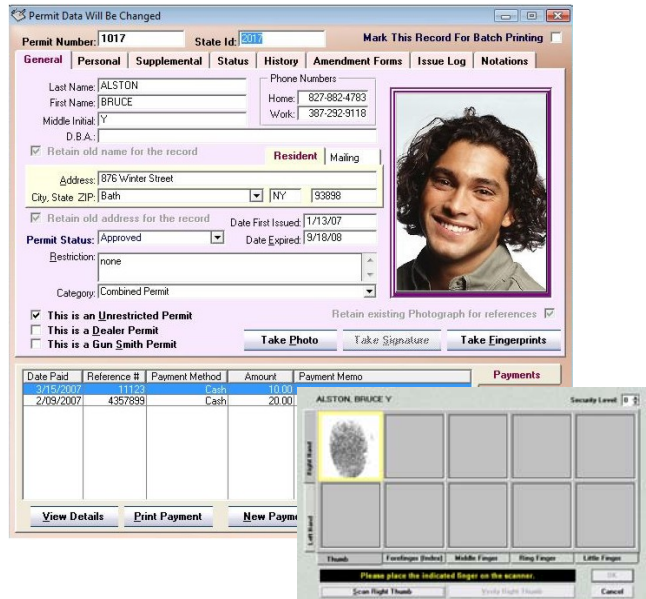

Concealed Pistol License Management System

The complete Concealed Pistol License Management System is a member of the Gunkeeper™ family of custom software programs designed as a repository for firearm license related data and card issuance. Replacing the inefficient paper legacy systems with an automated system allows you to quickly and easily enter data accurately, look-up data already entered effortlessly and quickly produce plastic CPL cards.

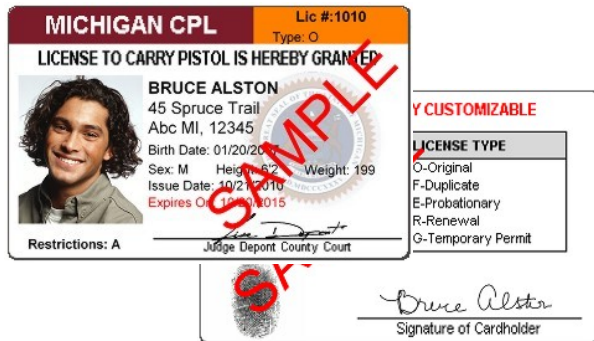

Central repository for:

- Demographics, photo, fingerprint, signature
- Status of Application, NICS etc...
- History - changes, address, name, employer
- Amendment - prints change to be emailed
- Issue Log - permit issuance history
- Notations - records notes relating to record
- Payments - payment data, print receipts
- Print Reports - CPL annual report
- Optional document scanning

1. RECORD

2. PRINT PVC CARDS

3. MAINTAIN/REPORT
