

IDentiphoto 5000Express System

**Produce cards in High Definition
for the next generation of ID card-based applications!**

- High definition printing gives you outstanding print quality over embedded electronics - plus high durability and security.
- Modular design grows with your needs. You can easily upgrade to dual-sided printing, lamination or encoding technologies.
- Simple operation requires only minimal training. Cards, ribbons and overlaminates come in cartridges that load in a snap.

The systems includes:

- HDP5000 Single-side Card Printer
- Asure ID[®] Express Software
- USB Digital Camera with Power Supply
- USB Cable
- Tripod
- inPhoto Capture Camera Control Software
- One YMCK Ribbon Cartridge—500 prints
- One Transfer Film Cartridge—1500 prints
- 500 Standard PVC Cards
- Cleaning Kit

**Starting at
\$3,895.00**

Meets the card application needs of: Government agencies, medium-to-large corporations, financial institutions, colleges and universities, health care facilities and service bureaus.

Dual-sided, lamination and encoder options available.

**Ask about our trade-in program.
