

Digital ID Keeper™

Feature/Benefit Table

Features	Std/Opt	Benefits
Easy-to-Use Card Designer	S	Rapid learning curve
Employee Table	S	Provides Employee/Card Holder record
Unlimited Card Categories	S	Flexibility
Unlimited Card Layouts	S	Convenient
Automatic Employee Numbering	S	Convenient, Accuracy
Card Serialization	S	Security, Cost Effective
Multi-user Ready		Simple to add more users
Photo capture from Camera or Windows file	S	Security
Photo History	S	Security
Photo Transfer to Windows Folder	S	Convenient, cost effective
Capture fingerprints	S	Security
Capture Signature	S	Security
Instant Point-of-Issue Id Cards	S	Convenient, cost effective
Support most card printers	S	Flexibility
Batch Printing	S	Convenient, cost and time effective
Card Issuing Log	S	Provides tracking data
Custom Data Field Add-ons	S	Convenient, expanded database
MS Access Database	S	Familiar, supported
MS SQL Database	O	Large volume, speed
Database compatible with other Gatekeeper system		Convenient upward migration path
Secure Password Protected Access	S	Security
On Demand Reports	S	Convenient, quick information
Multi Station Network-LAN, WAN	S	Convenient, flexibility
Capture, Finger Prints (10)	S	Security
Signature Capture	S	Security
Remote Card Printing	S	Convenient, cost effective, reduced training, control
Verification Scanners-Magnetic, Bar code, SmartCard, Proximity, Weigand,	O	Flexibility
Import from current database	O	Convenient, cost effective, time saving

Data Imports - ID Keeper utilizes MS Access or MS SQL database. Importing client data is accomplished in one of two ways. First, by the client providing us with a sample (copy) of their database, We will then generate a database import program that will allow the client to transfer their existing database to the ID Keeper database. Second, client can provide a CSV file (in Vivax Import Format) for direct importing the data into our system.

Custom designed real-time link into client database is available upon request.
