

Lobby Track

Visitor Management Software

Identify, verify and track visitors with ease!

Visitor Management

Pre-Register Visitors

Schedule visits in advance.

Fast Sign-In

Electronically capture information and sign-in. Driver's License compatible.

Self Sign-In

New visitors can sign-in using kiosk or tablet.

Print Visitor Badges

Issue professional, scannable visitor badges.

Identify, Verify and Track

Check Watch Lists

Check visitors against a local and/or on-line watch lists.

Notify Host

Notify the host when a visitor arrives via email, SMS or phone.

Control Entry

Activate and deactivate cards in access control systems.

Reports

Generates an evacuation report; reports can be quickly generated, printed, or emailed to security team.

Advantages

Quick Setup

Instantly import existing data or select from one of our pre-configured customizable databases.

Efficient and Productive

Thousands of badges, custom design tools, with multiple access levels and encoding are at your fingertips with Lobby Track.

Centralized Management

Multiple sites? No problem. Lobby Track makes it easy to access any networked location, even if it is across the world.

Complete Flexibility

You take control with a fully customizable user interface. Custom field integration and branded stations are just a click away.

Do you need additional functionality?

Lobby Track Light Client, purchased separately, is designed to complement your Lobby Track Premier system and provides additional functionality on workstations throughout your facility, at an economical price. It is an add-on client, and requires the Premier Edition software and a network connection to the Jolly server in order to function. Light Client runs in either self-registration or sign-in / sign-out mode.

IDentiphoto[®]
Specialists in IDentification

For all industries!

Businesses

Register and sign-in visitors in your lobby.

Schools

Check visitors against criminal watch lists.

Hospitals

Control patient visits with visitor rules.

Government

Issue secure visitor badges and integrate with access.
