- Get instant notification of a visitor who is on the watch list
- Track equipment in/out of school
- Track time and attendance of students and visitors
- View logs and reports detailing attendance history and trends

Educators face many challenges in today's ever-changing education environment. At the top of the list is assuring the safety and security of students and staff by managing visitors, contractors, temporary employees, and parents.

Lobby Track is the world's first member management and tracking software solution that addresses all your needs!

Its ability to connect to an unlimited number of cardholder databases in real-time allows you to centrally manage multiple users and groups, i.e., employees, visitors, contractors, vendors.

Plus it is easily deployable across entire districts.

Each workstation may be configured to perform specific tasks and be assigned specific staff, visitor or member groups to process.

Lobby Track's comprehensive functionality has made it the preferred solution for educators around the world! "Know who's walking the halls."

Available in three editions: Enterprise, Corporate and Small Business. Contact an ID Consultant today to find out which version will work best for you!
