

Strengthen Your Security Program

with
Lobby400
Identity Management
Solution

- Identify
- Qualify
- Track

replace your paper logs

FEATURES

- **REGISTER VISITORS & MEMBERS**
Register new visitors, contractors, vendors and groups on-site, on your facility's intranet or allow them to self-register at a kiosk. Web-based preregistration.
- **ISSUE COLOR BADGES**
Design and issue permanent and/or temporary color ID cards, badges and visitor passes using the integrated designer.
- **TRACK ENTRY & EXIT**
Track and control access to your facility by requiring visitors and members to scan their badges on entry and exit.
- **GENERATE ACTIVITY REPORTS**
Use the Report Center to view cardholder activity in detailed logs, reports and charts.
- **MANAGE MULTIPLE LOCATIONS**
Centrally manage multiple locations and databases. Connect to any ODBC or OLE DB compliant database in real-time.

Ever increasing security requirements make visitor management more challenging than ever, especially for government agencies and contractors. Visitors must be carefully verified, screened and badged while security maintains a steady flow of visitor traffic.

Lobby Track is the world's first member management and tracking software solution that addresses all your needs!

Its ability to connect to an unlimited number of cardholder databases in real-time allows you to centrally manage multiple users and groups, i.e., employees, visitors, contractors, vendors.

Plus it is easily deployable across entire organizations. The number of locations Lobby Track can manage is unlimited!

Each workstation may be configured to perform specific tasks and be assigned specific staff, visitor or member groups to process.

Lobby Track's comprehensive functionality has made it the preferred solution for government agencies and contractors around the world!

Available in three editions: Enterprise, Corporate and Small Business. Contact an ID Consultant today to find out which version will work best for you!

Available in Three Editions
 Enterprise, Corporate and Small Business

Feature Highlights

REGISTER VISITORS & MEMEBERS

- Group individuals into functional membership groups
- Scan drivers license, ID cards and passports for fast and reliable auto-fill registration
- Check visitors against a watch list for added security
- Use Kiosk mode for self-registration with non-disclosure agreement
- Pre-register visitors online to streamline registration process
- Search easily for specific visitor or cardholder information from thousands of records using powerful and flexible search tools

ISSUE BADGES

- Design cards and badges using powerful graphics and layout tools
- Add text, graphics, photos, 1D and 2D barcodes, magnetic stripes, watermarks and much more to the card design
- Capture photos from any TWAIN / WIA compatible camera and improve image quality using the integrated image editor

TRACK ENTRY & EXIT

- Scan badges with barcodes, magnetic stripe or proximity card reader or a standard keyboard
- Keep records of all entries and exits to your facility
- Configure access control rules to limit access to secure areas
- Set alerts and messages

GENERATE ACTIVITY REPORTS

- Customize logs and reports – use any combination of fields and criteria to produce professional reports
- Log time and attendance with exportable data capabilities
- Track activities with customizable charts
- Print and export evacuation reports

MANAGE MULTIPLE LOCATIONS

- Connect to an unlimited number of cardholder databases in real-time
- Simultaneously manage multiple locations and workstations
- Centrally manage multiple users, groups and locations
- Add, delete and modify database information in place using the integrated database editor
- Link to any database, file based, server based, LAN / WAN, or ODBC / OLE DB in real-time
